

Jazz at Lincoln Center

Broadway at 60th Street, New York, NY

Project Owner:

Jazz at Lincoln Center

Design Team

- Architect: Ennead Architects
- Engineer: Altieri Sebor & Wieber

Mechanical Contractor:

- JT Falk

ADE Contact:

- Sales: Rich Kuhn

Manufacturer:

- Titus: Curved Linear Diffusers

Completion Date:

- 2016

Description:

In the mid-1980s, Lincoln Center, Inc. was looking to expand its programming efforts to attract new and younger audiences, and to fill its halls during the summer months when resident companies were performing elsewhere. Long-time jazz enthusiasts on the Lincoln Center campus and on the Lincoln Center Board recognized the need for America's music to be represented, and lobbied to include jazz in the organization's offerings. After four summers of successful Classical Jazz concerts, Jazz at Lincoln Center (JALC) became an official department of Lincoln Center in 1991.
