- Titus: Diffusers
- Greenheck: In-line Vari-Green, Utility Fans, Roof Exhaust, Filter Units

Completion Date:

- 2017

Description:
NYU is currently transforming the long-empty 370 Jay Street building into a global center for science, technology, and education. The renovation reflects NYU's approach to growing in Brooklyn: they are developing infrastructure that fits into the fabric of its neighborhood and programs that benefit the borough, the city, and the region.
