100 E. 63rd Street, New York, NY

Project Owner:
The Altamarea Group

Design Team

- Architect of Record: Kushner Studios
- Architect: Meyer Davis Studio Inc.
- Engineer: MG Engineering

General Contractor:

- PB Construction

Mechanical Contractor:

- Climax HVAC Mechanical Corp.

ADE Contact:

- Sales: Lou Scatorchia
- Engineering: Dara Sanii

Manufacturer:

- Above Air-Air Cooled Split
- Coolbreeze custom built system

Completion Date:

- June 2015

Challenges/Problems/Solutions:

- Client required air cooled packaged system with a reverse configuration (condensing on top, rather than bottom of unit). ADE's Engineering Department custom designed and Coolbreeze custom built a knockdown construction system with condensing section on top with a 2-way discharge ducted system.

(2) 2-way discharge plenums for top condensing section
