

Upcoming Webinars - Register Today!

Next month, ADE will be offering live webinars on Laboratory Exhaust Valves and Commercial Kitchen Filtration Solutions.

Each webinar will be worth 1PDH Credit and is free to join, please email ADEEvents@adehvac.com to register.

Laboratory Exhaust Valves: Thursday, February 15th – 11:00am

Commercial Kitchen Filtration Solutions: Thursday, February 22nd – 11:00am

Laboratory Exhaust Valves

This course will review the basics of airflow control technologies and the differences between closed and open loop controls used in venturi valves, high accuracy terminal units and VAV boxes.

Commercial Kitchen Filtration Solutions

This course will review recent NYC code requirements for pollution control units, the benefits and components of electrostatic precipitators along with MEP requirements and installation.

Have any engineering questions? Please contact us at ADEEngineering@adehvac.com, or call us at (516) 256-7666. Our team of engineers is here to help.
